

MOCK MID-TERM TEST I:

Read the following description and do the activities below.

a) Highlight the correct option from the list below. (4 each: 32)

What Will Classrooms of the Future Look Like & How Will They Engage Our Students By Professor Henry Craze

Do you wonder what classrooms¹ like in the future? I do! Technology.....² and it becomes challenging to use its new tools for teaching and learning. They have invaded the field of education, for example: some classrooms³ interactive boards instead of blackboards and tablets⁴ for children who are having difficulty academically. As they.....⁵, fun, and interactive, they⁶ really helpful.

When we⁷ kids, perhaps, we dreamed about having computers in our classrooms for learning. In today's digitalized world, some emerging technologies are going to take education to an unbelievable level.⁸, we mustn't forget something: educating is the most important thing not only having fun.

1. will be - are going to be - are
2. rapidly is changing - is rapidly changing - changes rapidly
3. are now having - now have - have now
4. is used - were used - are used
5. is engaging - are engaging - engage

b) Complete this interview between two recent graduates who are playing the roles of interviewer and interviewee. USE DIFFERENT MAIN VERBS – DO NOT REPEAT THEM (6 each: 36)

Justin:.....?

Pam: Well, for me, being an independent thinker is my greatest strength

Justin:.....?

Pam: Yes. Playing in a team is also one of my strengths. I can do it perfectly well.

Justin:.....?

Pam : Of course I do. I'm not perfect, hahaha. I have so many ideas that it can sometimes be considered a weakness.

Justin:.....
when you were in high school?

Pam: No, I didn't. I don't have any work experience .

Justin:.....?

Pam: I'm going to take a master's degree in teaching.

Justin: Why do you want to have a degree in teaching?

Pam:

c) In four sentences give your opinion about ONE of these issues. Use connectors, specific vocabulary and the proper tenses. (8 each: 32)

1. What do you think the future of higher education will be? Will it be better or worse? Why?
2. What's the job of your dream?
3. What are you like? Do you have any special skills?

For example:

1. I think higher education will be totally different in the future. Teachers will be replaced by computers. What's more classroom will disappear and students will use interactive boards and other technologies to study.
